

## The Constitution

Never in our history has a reliable, fine-class newspaper been so easily and faithfully presented as at present.

Now THE DAILY CONSTITUTION is fully prepared to furnish such a paper as at present.

With talents unequaled by any Southern paper, with trained Correspondents in every locality in which its readers are interested.

With a capable Editorial Staff, a corps of expert writers, and a staff of men who know THE CONSTITUTION can promise to its readers that it will be better than ever before, and will continue in position as the leading Southern newspaper.

While THE CONSTITUTION will carry the general news of the day, and express its opinion frankly and impartially, it will devote special attention to the Southern people, and to all sources in all legitimate channels or directions.

Every logical and even man interested in Southern politics and events, should read THE CONSTITUTION in one of its editions.

Address: THE CONSTITUTION,	ATLANTA, GA.

Entered as second-class matter in the Atlanta Post Office, December 7, 1878.

ATLANTA, GA. JULY 23, 1881.

COINS are increasing in number and magnitude. In Chicago yesterday it was found that nearly all of the leading articles of her trade had been converted.

Corners are an indication of abundance of money as well as an abundance of daring and unscrupulous dealers.

THERE is plenty of yellow fever in Havana, Cuba, and the disease is rapidly spreading throughout this country, and it is now too late to get up a first-class yellow fever sensation. The bronze intruder is much less repulsive hundreds of miles away in some other country. We do not need him this summer.

The president is steadily improving, but he is very weak, and the rate of progress to health and strength will be very slow. It is almost certain that he will require all of August and September to recuperate in. The people will await his convalescence with patience and hope so long as they feel assured of complete recovery at the end of his sick term.

The State University.

The closing session of the university shows a steady increase in the popularity of this venerable institution of learning. Its friends—the friends of education throughout the state. Among other manifestations of disapproval we notice a dispatch from Bishop Elliott, of western Texas, to Governor Foster. He says in the dispatch, "The church I represent will earnestly join in observing the day of thanksgiving for the recovery of the president."

The Philadelphia Press of Thursday morning, in mentioning the severe surgical operation through which Senator Hill has been obliged to undergo, says that the personal friends of the distinguished senator who voted to know that he is in the hands of such skilful surgeons as Professor Gross and Professor Pancoast, it adds: "The senator bore himself bravely. He will be about again in a few days and when the time comes will be in his place in the senate." Pouring hot shot into the republican party as aforetime." This intelligence will gladden the hearts of thousands upon thousands in Georgia and wherever else our senior senator is personally known.

COTTON PRODUCTION IN GEORGIA.

A glance at the census returns of the crop of 1879-80 shows that there is better farming in upper Georgia than in any other part of the state. In Bartow 21,969 acres yield 10,616 bales; in Cobb 27,298 acres were made to produce 13,092 bales; in Fulton 30,615 acres yielded 14,545 bales, and in Milton 9,985 acres on the spurs of the Blue Ridge showed an outcome of 4,400 bales. In those bales each acre gave nearly half a bale, and the nearest approach to such an result in lower middle Georgia was in S. revenue when 21,716 acres yielded 8,166 bales; in Wilkes where on 30,891 acres the yield was 11,109 bales; and in Hancock where the product of 42,773 acres was 15,010 bales.

The figures from the lower counties are the reverse of flattering. In Baker 28,670 acres yielded only 4,870 bales—or about one-half to six acres.

In Calhoun 24,429 acres produced 4,079 bales; in Dade 40,092 acres yielded 9,736 bales; in Mitchell 30,265 acres were required to make 5,599 bales; in Thomas 35,805 acres gave 8,773 bales; and in Worth the output of 12,157 acres was only 2,893 bales.

Nor are the figures from the middle Georgia counties very much better. In Baldwin they are 27,832 acres, 7,921 bales; in Butts 20,734 acres, 6,829 bales; in Campbell 21,448 acres, 8,986 bales; in Coweta 48,494 acres, 10,282 bales; in Grady 40,637 acres, 12,448 bales; in Meriwether 49,076 acres, 15,154 bales; in Oglethorpe 35,306 acres, 12,336 bales; and in Washington 39,303 acres, 23,08 bales.

A Dangerous Place and Serious

Accident.

Thursday night occurred of a serious nature

on East Alabama street, on the grounds

of the Opera House. For some reason a sec-

ond floor gave way and the entire building

fell upon the first floor.

On one of the boards lying on the walk, which tilted, a woman fell and was severely injured.

After reading the letter, Stevens told a

Mr. Williams that he would aid him in any

way he could. Mr. Williams then said that he

had been living with him for quite a

time, and that he had been engaged by him

to drive him through the country.
